DETAILED ACTION

Allowable Subject Matter

1. Claims 1-4, 6-7, and 9-12 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach an encoder output divider circuit that comprises a timer that measures a first period of an encoded signal, a divider coupled to the timer that generates a first divided encoded signal, a calculator coupled to the divider that calculates a value such as a rotational speed, based on the first period, an output selector coupled to the calculator, the divider, the timer, and configured to select a first divided encoded signal for output when the calculated value is within a designated range and the encoded signal for output when the calculated signal is outside the designated range; the divider is further configured to generate a second divided encoded signal having a second period being offset in time from the first divided encoded signal by a quarter of the second period.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
